1 Introduction

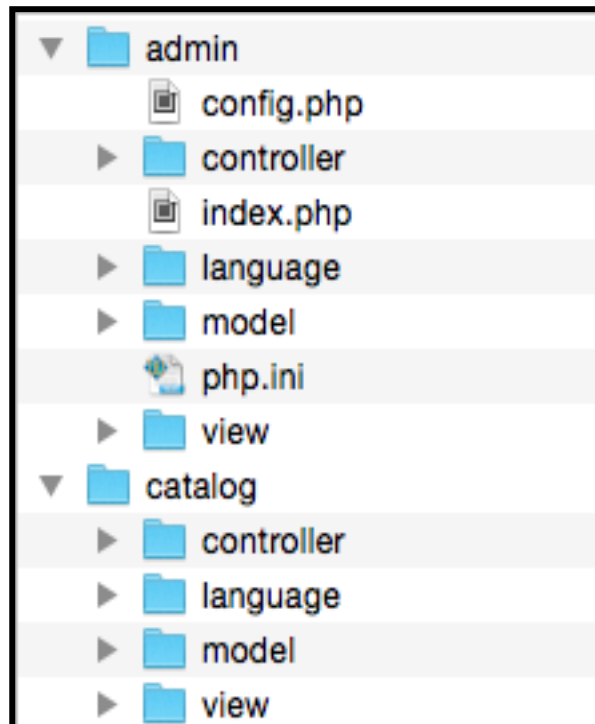

Welcome to PayTabs payment gateway plug-in for Open Cart. This document illustrates how our gateway can be integrated with Open Cart applications in simple and easy steps. Please follow the steps in order to integrate the PayTabs plug-in with your Open Cart Site.

2 Getting Started

First download the PayTabs plugin from the PayTabs Website and unzip it.

Within the folder, you will find two sub folders:

1. admin
2. catalog

3 Adding the PayTabs Module to OpenCart

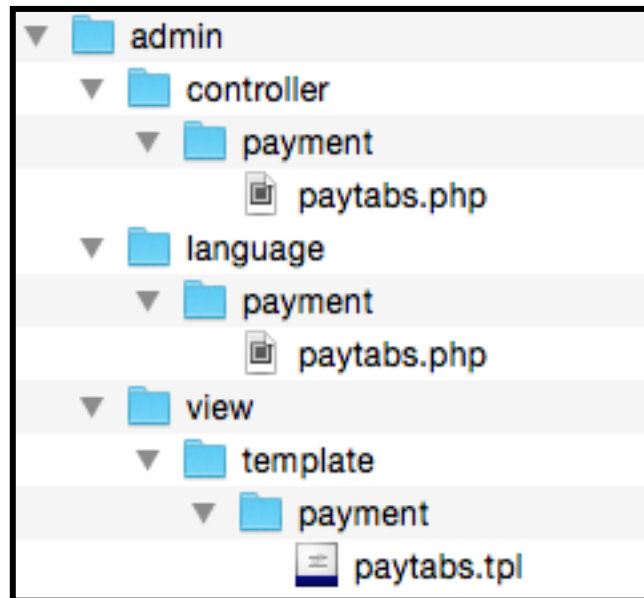

Step 1 *Copying the admin folder Files*

Go to [admin](#) folder and paste the files from the Plugin folder into your OpenCart website directory by following the same folder hierarchy

[controller](#)/payment/paytabs.php

[language](#)/payment/paytabs.php

[view](#)/template/payment/paytabs.tpl

Step 2 *Copying the catalog folder Files to OpenCart*

Go to [catalog](#) folder and paste the files from the Plugin folder into your OpenCart website directory by following the same folder [hierarchy](#)

[controller](#)/payment/paytabs.php

[controller](#) /checkout/error.php

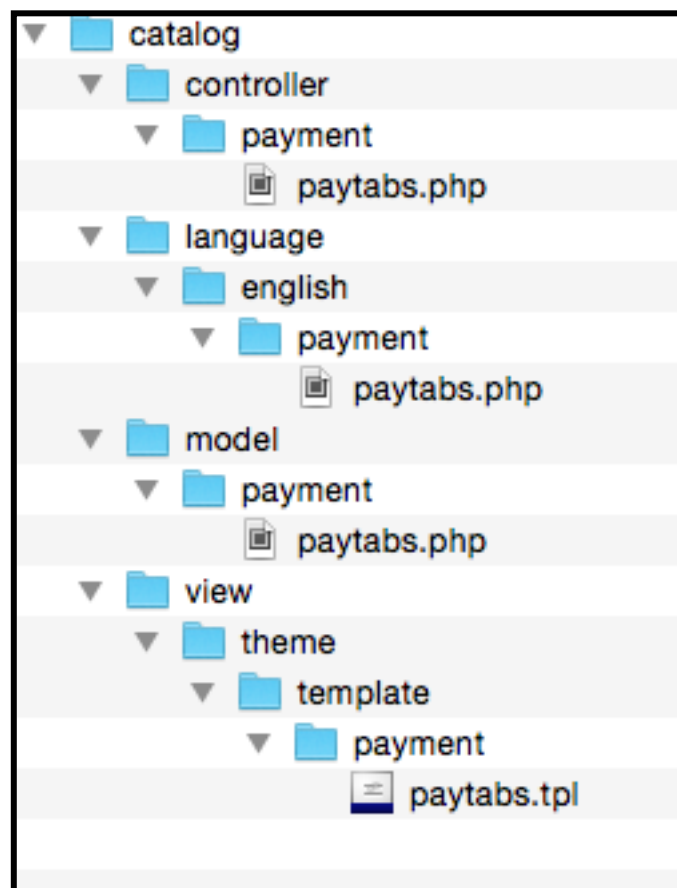

[language](#)/english/payment/paytabs.php

[language](#)/english/checkout/error.php

[model](#)/payment/paytabs.php

[view](#)/theme/template/payment/paytabs.tpl

[view](#) /theme/default/template/common/error.tpl

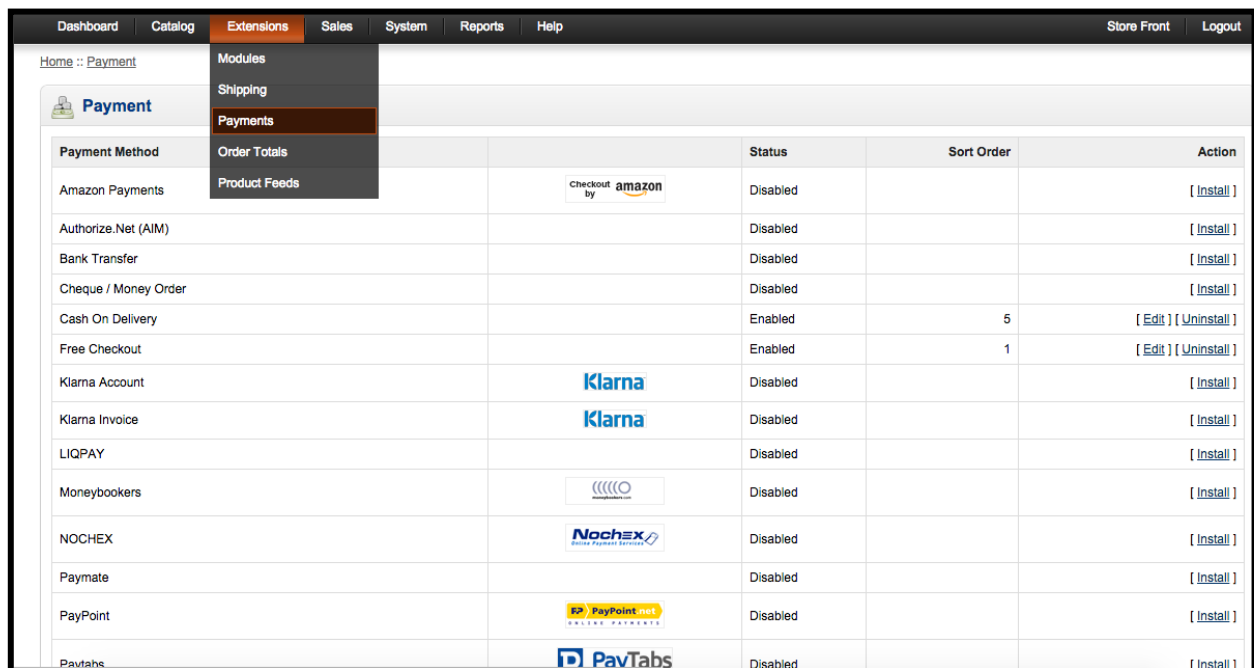

Step 3 *Install PayTabs Plugin from administration*

The following are basic instructions on how to install PayTabs Plugin for OpenCart.

First, you need to log in to OpenCart administration.

Then go to Extensions -> Payments

Then search PayTabs Payment options and click on the "Install" button on the right hand side.

Dashboard Catalog Extensions Sales System Reports Help Store Front Logout					
Home :: Payment					
 Payment	Modules				
	Shipping				
	Payments				
	Product Feeds				
Payment Method	Order Totals		Status	Sort Order	Action
Amazon Payments			Disabled		[Install]
Authorize.Net (AIM)			Disabled		[Install]
Bank Transfer			Disabled		[Install]
Cheque / Money Order			Disabled		[Install]
Cash On Delivery			Enabled	5	[Edit] [Uninstall]
Free Checkout			Enabled	1	[Edit] [Uninstall]
Klarna Account			Disabled		[Install]
Klarna Invoice			Disabled		[Install]
LIQPAY			Disabled		[Install]
Moneybookers			Disabled		[Install]
NOCHEX			Disabled		[Install]
Paymate			Disabled		[Install]
PayPoint			Disabled		[Install]
Paytabs			Disabled		[Install]

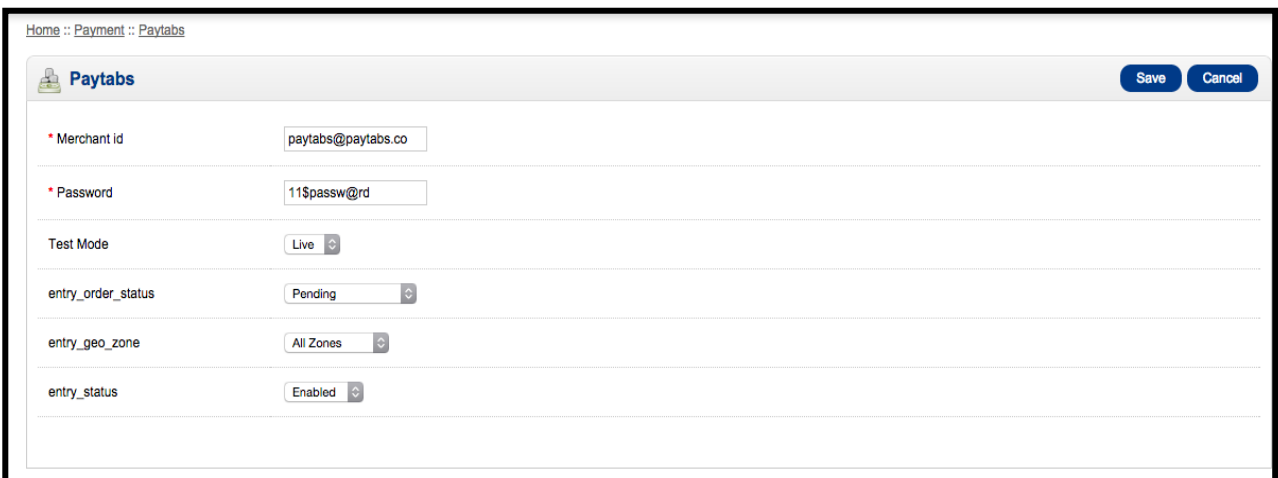

Step 5 Managing the module

After the installation is complete, you can manage the module. On the right hand side of the PayTabs extension row, two buttons will appear, i.e., Edit and Remove options.

Clicking the Edit button will allow you to insert your PayTabs merchant account details, i.e., merchant email and password, and enter any other system information.

The Test transaction mode can be used for checking whether the payment links are correct or when your store is offline. It is important to switch to “Live” mode once your store goes live.

Make sure that the entry_status is set to “Enabled”.

The screenshot shows the 'Paytabs' configuration page. At the top, there's a breadcrumb trail: 'Home :: Payment :: Paytabs'. Below this is a header bar with the 'Paytabs' logo and 'Save' and 'Cancel' buttons. The main form contains several fields: 'Merchant id' with the value 'paytabs@paytabs.co', 'Password' with '11\$passw@rd', 'Test Mode' set to 'Live', 'entry_order_status' set to 'Pending', 'entry_geo_zone' set to 'All Zones', and 'entry_status' set to 'Enabled'. Each field has a dropdown arrow on the right.

Step 6 A new Payment Method

Now, during your checkout process, you will see a new option under “Payment Methods” as PayTabs Payment Gateway. This means that your PayTabs Payment Plugin has been installed correctly.

Step 5: Payment Method

Please select the preferred payment method to use on this order.

- ☒ PayTabs Payment Gateway
- ☐ Cash On Delivery
